Southern Air Transport, Inc.

P. O. BOX 1266 • INTERNATIONAL AIRPORT • MIAMI, FLORIDA 33148

November 30, 1973

Letter to All Customers:

Effective December 30, 1973, Southern Air Transport will discontinue all common carrier services as a Supplemental Air Carrier. Southern Air will continue contract services as a Large Commercial Operator under the same Federal Aviation Administration rules and regulations and with the same care and competence as it did while performing certificated common carrier service. In its future operation, Southern will not perform single or infrequent charter flights for the general public, but will market its capability to a limited number of large customers who require multiple flights in contract operations over a fixed term, and will customize its capabilities to the requirements of specific customers. Southern will continue to service its existing contract customers without interruption.

Southern extends its sincere appreciation to all of its customers and all of the many agents who have utilized its ad hoc common carriage charter service over the many years. If you feel that you may have a need for Southern's contract service, please call, and we will be happy to discuss your requirements to determine if they would support a contract operation.

Stanley G. Williams
President
